

QUALITY ASSURANCE DOCUMENT QA 79 - RECOGNISED STUDY CENTRE PARTNER: APPROVAL, MONITORING AND MANAGEMENT PROCEDURE

Introduction and Definitions

The purpose of this document is to outline the approval, monitoring and review of arrangements where Arden University contracts with a partner to support part of a programme or provision. These procedures are aligned to the University's Regulatory Framework and Office for Students (OfS) Quality and Standards Conditions, with reference to the QAA Quality Code for Higher Education.

Recognised Study Centre Partner

A partner institution that is authorised to provide campus/premises and/or additional study resources (including student support) to students in the UK or overseas on Arden University programmes. The additional study resources can include academic and non-academic teaching sessions, library and study facilities, local pastoral support, work-based learning, study skills (inc. English language), career guidance and other local services face-to-face and online.

The University will retain full responsibility for academic delivery, content and assessment, including the approval of partner institution staff to provide academic and non-academic teaching sessions, as well as the additional academic and non-academic teaching elements. Where academic and non-academic teaching sessions are permitted then these will be carefully developed in consultation with relevant Arden University staff.

The University remains ultimately responsible for the academic standards of awards granted in its name and quality of the student experience delivered by partner institutions.

Approval Process

There are eight key stages (please see appendix 1) involved in the approval process for a *Recognised Study Centre Partner*, namely:

- 1. Initial Consideration of Proposal by Arden University Executive
- 2. Due Diligence Approval by Partnership Committee
- 3. Approval to Proceed by Arden University Executive
- 4. Collaborative Planning Process
- 5. Institutional Approval Event
- 6. Approval by Academic Board
- 7. Recognised Study Centre Partner Agreement
- 8. Collaborative and Partnership Register

Stage 1. Initial Consideration of Proposal by Arden University Executive

Any partnership with an external institution must convey an advantage to the University. These advantages may be financial or at times less tangible and include opportunities for further University development, capacity or presence. However, a partnership will also bring risks and, as far possible, these will be formally assessed, quantified and mitigated.

Potential *recognised study centre partner* proposals will be primarily considered by the Pro Vice Chancellor (International). On the basis the recognised study centre partner fits the criteria listed in Stage 2 below, and by agreement, a brief partnership overview will be prepared by the Director of the Centre for Academic Partnerships, including a list of the services the partner will be contracted for. The Initial Consideration of Proposal will be submitted to Arden University Executive for discussion and an approval of interest to proceed to Stage 2.

Stage 2. Due Diligence Approval by Partnership Committee

Upon approval of interest from Arden University Executive, the Partnership Committee will be responsible for formally checking the suitability of the *recognised study centre partner* to provide the services they will be contracted for and identifying any possible risk prior to an agreement.

The due diligence (please see appendix 4) will aim to demonstrate the following points:

- appropriate professional standing of the recognised study centre partner and legal capacity to enter into an agreement with the University (including in-country requirements)
- financial stability of the recognised study centre partner and assurance of registered status, ownership and internal management arrangements. The recognised study centre partner must be a legal entity operating in accordance with the legal obligations pertaining to the country in which it operates
- identification of any business and/or ethical links that might pose a reputational risk to the University
- where applicable, the *recognised study centre partner's* quality assurance track record with external regulators such as in-country bodies, Ofsted or OfS
- the *recognised study centre partner's* ability to comply with the University's requirements for safeguarding and the Prevent duty
- the recognised study centre partner's ability to provide all the services being contracted for

The Centre for Academic Partnerships will ensure the Deputy Vice Chancellor (Academic) and/or relevant Dean of Faculty and Head of School(s) are consulted early on for an academic assessment of the proposal. Where required a preliminary site visit may be organised to develop a better understanding of the collaboration and initial confidence. The Deputy Vice Chancellor (Academic) and/or relevant Dean of Faculty and Head of School(s) will satisfy themselves that the *recognised study centre partner* has the capability and resourcing to secure and monitor any academic teaching staff needed to provide services contracted for.

The development of due diligence and collation of supporting evidence for *recognised study centre partner* arrangements will be co-ordinated by the Head of Quality (Partnerships). Following assessment of the financial, legal, professional and reputational standing of the *recognised study centre partner*, the Due Diligence Report, Risk Assessment Summary and Partnership Committee outcome will be forwarded to the Director of the Centre for Academic Partnerships.

Stage 3. Approval to Proceed by Arden University Executive

The Director of the Centre for Academic Partnerships will be responsible for collating comprehensive proposal documentation to Arden University Executive. As well as the Due Diligence Report and Risk Assessment Summary, this will include the Partnership Proposal and Business Plan (please see appendix 2 and 3) developed in conjunction with relevant teams, including cost benefit and risk analysis, profit and loss projections, academic assessment and market opportunity.

The criteria for selection of a *recognised study centre partner* by Arden University Executive will include consideration on the following:

- the fit in vision, mission and strategy between the partner institution and the University
- the reputational advantage (or risk) for the University
- the robustness of the business case, including cost benefit analysis, risk assessment, profit and loss projections, academic assessment, market analysis and evidence of demand
- evidence of good legal, financial, professional and reputational standing of the partner institution
- indication of a successful partnership track record by the partner institution
- initial evidence of premises/campus and/or additional study resources (including student support) required to provide a good student experience
- opportunities to diversify the portfolio of collaborative relationships

Once all assessments have been undertaken, documentation will be presented to Arden University Executive for an official approval to proceed of the business case.

Stage 4. Collaborative Planning Process

Upon formal approval to proceed from Arden University Executive, the collaborative planning process will commence. The process will be managed by the Director of Centre for Academic Partnerships and involve various stakeholders across Academic, Marketing, Admissions, Registry, Quality and Student Support.

The collaborative planning process will assess and develop the operational requirements for a *recognised study centre partner* provision and undertake any further site visits.

The collaborative planning process will include:

 preliminary meetings with Arden University Dean(s) of Faculty and/or Head of School(s) and Director of Student Experience for assessment of the additional study resources (academic and non-academic teaching sessions) and student support proposed by the partner

- the cultural context and any cultural assumptions about higher education learning methods that may affect University delivery of the programme(s) and provision
- adequate arrangements for marketing, recruitment, admissions, and enrolment of students
- the suitability of premises/campus and/or additional study resources (including student support) to be used by students, including the provision of an appropriate and safe working environment for students
- the academic and/or professional capacity of the partner institution staff to deliver additional academic and non-academic teaching elements and support
- an understanding of the partner's arrangements for managing, developing and monitoring staff who would deliver additional elements
- the suitability of the learning environment and services provided to students
- the modification of student handbooks, induction processes and student feedback mechanisms
- the appropriate coverage of annual monitoring of *Recognised Study Centre Partner* within University processes
- the development of the operations manual

The ongoing operational management of *recognised study centre partner* arrangements will be undertaken by the Director for Centre of Academic Partnerships or their nominee.

Stage 5. Institutional Approval Event

Upon completion of the collaborative planning process, preparation will be undertaken for an Institutional Approval Event. The Institutional Approval Event will formally assess the compatibility of a *recognised study centre partner* and assurance of mutual commitment to the partnership. The objectives of the institutional approval event are:

- to ensure the *recognised study centre* has adequate understanding and experience of in-country and UK higher education
- to verify the recognised study centre partner has the capabilities and resources to locally support student achievement of learning outcomes
- to understand any previous or current partner experience in collaborative arrangements (at proposed levels of study and programmes)

The Institutional Approval Event will include at least one external panel member who has experience of judging *collaborative* provision, Deputy Vice Chancellor (Academic) or Dean of Learning and Teaching/Deputy Pro Vice Chancellor, Registrar and Chief Operating Officer or Academic Registrar, Head of Quality (Partnerships), Director of Library Services, Director of Student Experience, Dean(s) of Faculty and relevant Head(s) of Schools.

Institutional Approval Event will consider and make judgements with regard to:

- the suitability of named premises/campus and/or additional study resources (including student support)
- the recognised study centre partner arrangements for managing and developing additional academic and non-academic learning resources, if appropriate
- the professional capacity of the partner institution staff to deliver the additional academic and non-academic teaching sessions and study resources (including student support)
- the *recognised study centre partner* ability to comply with the University's requirements for safeguarding and the Prevent duty
- the *recognised study centre partner's* quality management to support the University's compliance with OfS Quality and Standards Conditions

If the proposed *recognised study centre partner* is located outside the UK, the Institutional Approval Event will also consider and make judgements with regard to:

- the legal and regulatory frameworks and higher education structures of the country concerned in terms of their suitability and status for partnership with the University, including any requirements for local accreditation or recognition in order for University programme(s) to be supported in that location
- the level of familiarity of the prospective partner organisation with the standards and ethos of UK higher education

The Institutional Approval Event will be organised (where possible) at the partner institution and incorporate a formal site tour or a virtual site tour (please see appendix 5). The Institutional Approval Event will also allow the partner institution to assess the University and raise any queries or clarification.

A written report will be provided by the panel, which may stipulate conditions of approval or recommendations to be taken forward by the University and/or partner institution. Any conditions or recommendations would be added to the Partnership Risk Register and managed by the Partnership Committee.

Stage 6. Approval by Academic Board

The Academic Board will consider the report of the Institutional Approval Event, Site Visit Report and Due Diligence Summary Report and may grant final approval of the proposed recognised study centre partner arrangement, which could stipulate conditions of approval or recommendations to be taken forward by the University and/or partner institution. Decisions on the approval of a new recognised study centre partner arrangement will be reported to the Senior Management Team and Academic Standards and Ethics Committee. Following approval of the academic case by Academic Board, the partner institution will be

informed in writing of approval to allow the start of programme marketing (unless restricted by in-country authorisation) and operational planning

Stage 7. Recognised Study Centre Partner Agreement

Following approval from Academic Board a formal agreement will be drawn up with the *Recognised Study Centre Partner*. Roles and responsibilities will be set out and agreed in a legally binding contract before any partnership commences. The agreement will include:

- agreement duration (typically 5-years for *recognised study centre partner* agreements)
- a schedule of roles and responsibilities of both parties
- authorised delivery of additional elements
- financial details
- legal aspects
- termination arrangements to protect interest of students should the agreement need to end by either party

The Recognised Study Centre Partner agreement will be maintained by the General Legal Counsel.

Stage 8. Collaborative and Partnership Register

All signed *recognised study centre partner* agreements will be added to the University's Collaborative and Partnership Register by the Head of Quality (Partnerships) and published on the University website. The Collaborative and Partnership Register will detail the partner institution, programmes, start, end dates, campus/premises (if applicable) and review date of the *recognised study centre partner* agreement.

Monitoring Process

All Recognised Study Centre Partner arrangements will be monitored at two distinct levels: programme and partner. The programme level monitoring will be in accordance with the University's academic standard and quality assurance processes and overseen by the Academic Board (delegated to Quality and Standards Committee). All Recognised Study Centre Partners will use the AMR to inform continuous improvement by way of a Quality Enhancement Plan (QEP). The partner level review with be undertaken by the Partnership Committee to ensure continuous suitability of the arrangement.

In conjunction to programme level monitoring, the annual partner review will be undertaken in a separate process to check the currency and effectiveness of the partner and the associated support of an Arden University provision. The partner review will incorporate a summary report from programme level monitoring (inc. AMR) but include wider partnership oversight on financial performance and benefits; overall student experience; and consideration of any reputational changes.

The purpose of partner level review will be to:

- provide assurance that a *Recognised Study Centre Partner* continues to be a suitable partnership
- ensure currency of the *Recognised Study Centre Partner* agreement and address any needs identified via the review process

• assess strategic, financial and operational management of *Recognised Study Centre Partner* and manage any identified risk or if required, recommend termination of the agreement to Arden University Executive and Academic Board

The annual partner review will be undertaken at the Partnership Committee to ensure the *Recognised Study Centre* Partner arrangement sustains and delivers a high-level student experience. The Partnership Committee will maintain a Partnership Risk Register to ensure effective identification and management of all associated risks. The annual partner review will be completed for the *Recognised Study Centre Partner* provision delivered in the previous year and co-ordinated by the Head of Quality (Partnerships) in consultation with the Director of Centre of Academic Partnership.

Termination by University

In the event the University decides to end a partnership with a *Recognised Study Centre Partner*, then the termination will be carried out in line with terms of the contract. In such cases termination can be actioned due to a variety of reasons (e.g. cost viability, monitoring concerns, change in strategic direction). The termination process may be initiated from any point of the management and governance structure but in all cases will be subject to approval by Arden University Executive and Academic Board.

The termination process will ensure that the student experience is maintained and protected throughout the exit period, taking into account the obligations under the Student Protection Plan

On approval of termination from Arden University Executive and Academic Board, a meeting to confirm the termination decision will be held with the *Recognised Study Centre Partner*. A formal letter will set out details of termination and the *Recognised Study Centre Partner* will be removed from the Collaborative and Partnership Register.

Termination by Recognised Study Centre Partner

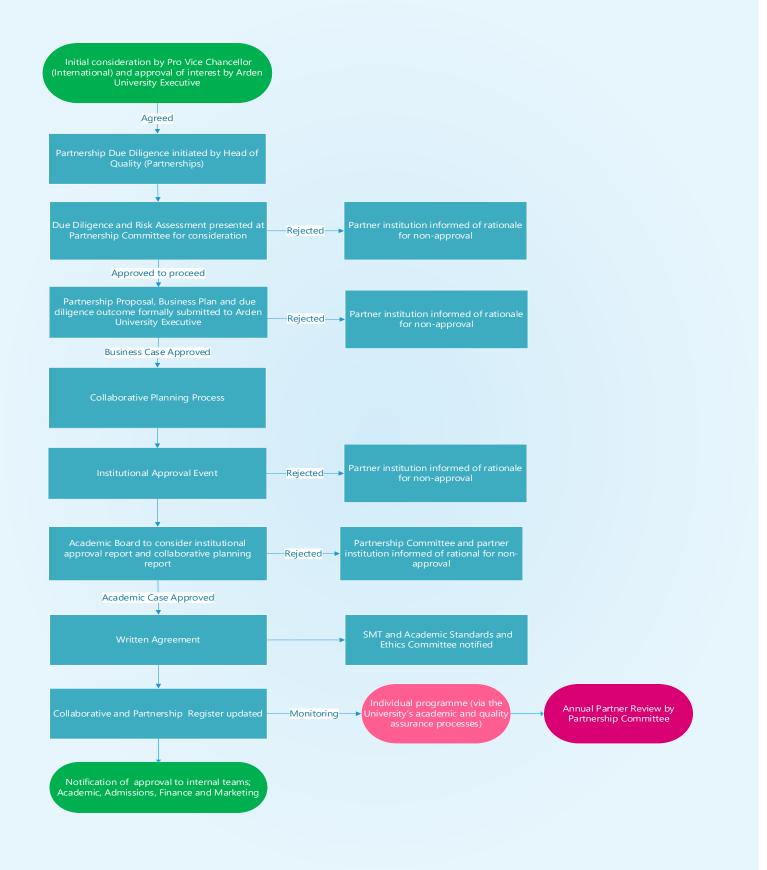

A partnership can be terminated by the *Recognised Study Centre Partner* but must comply with the terms of the contract and the University's Student Protection Plan. The *Recognised Study Centre Partner* will be advised to send a formal letter of termination with rationale for closure fully communicated. The University will advise the *Recognised Study Centre Partner to* continue working with the University to ensure students are protected throughout the exit period.

Partnership Business Plan Proposal Overview

| Who is the partner institution? | |
|---|--|
| What type of partnership is this? | Choose an item. |
| What academic award(s) (if any) does this partnership involve? | Select an award. If more than one award, then please list all awards: Click here to enter text. |
| Is this an existing or new programme, variation on existing programme or replacement of existing programme? | Choose an item. If 'variation on existing course' or 'replacement of existing course', please describe requirements |
| Who is the University Lead for this partnership? | |
| Please state what month and year the first students are expected to be recruited under this partnership? | Click or tap to enter a date. |

Executive Summary

Proposal Benefits and Risks:

1. Please describe the new partnership and explain what the potential benefits are and how you might measure this henefit?

Possible benefits might include cost savings, increased revenue, improved student/staff experience, staff capacity savings/increased staff productivity/reduction in time taken to complete a process, staff upskilling/development, improved compliance with external bodies, and enhanced brand reputation with students/firms/regulators

Click here to enter text

2. Please describe what the potential risks of launching this partnership are, and what the potential risks of not launching this partnership are?

Click here to enter.

3. Please list the people who have been consulted during the development of this Business Plan (it is essential that advice is sought from the relevant Dean of Faculty and Head of School at proposal stage).
